

## **Philippe TUZZOLINO**

### **Senior Vice President, Orange**

Philippe TUZZOLINO is the Vice President Environment of the Orange Group, he oversees the Environment and the organization of Climate Change: Net Zero carbon objectives, impact on biodiversity and carbon sequestration policy. He defines policies and monitors energy consumption and the Group's overall footprint (Orange is present in 164 countries for business). As responsible for the Carbon Footprint, he participated in the development of methodologies for the ICT sector so that the sector complies with the IPCC recommendations as a member of the ITU-T Study Group "Climate Change" and also participates at the COP. He is a member of the Strategic Materials Committee of BERCY. Before joining the Orange Group, Mr. TUZZOLINO held several positions on Strategic innovation projects at the Headquarter of La Poste and at the French Ministry of Defense.
